Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other matters

Our audit opinion on the Company’s financial statements for the year ended 31 December 2015 was qualified with regard to opening balances, which may have a possible impact on the comparative numbers of the interim statement of income for the period ended 30 June 2015.

5 INVESTMENT PROPERTIES

Investment properties represent the fair value of the properties which are located in the U.A.E.

Investment properties are stated at fair value, which has been principally determined based on valuations performed by management. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Valuations are performed on a periodic basis, at least annually, and the fair value gains and losses are recorded in the statement of income. Fair value of the Company's investment properties are based on unobservable inputs (i.e. Level 3).

Investment property with a carrying value of AED 50,000,000 is mortgaged against the bank loan (Note 14). The Company has also assigned the rental income of the related property in favour of the bank as security.

7 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual financial statements for the year ended 31 December 2015.

Fair value of the Company's financial assets that are measured at fair value on recurring basis.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly.
